DESCRIPTION

This project provides for pedestrian improvements to complete unfinished streetscaping along approximately 5,425 feet of Central Business District (CBD) streets in Bethesda as identified in the Bethesda CBD Sector Plan. This includes 1,125 feet along Woodmont Avenue between Old Georgetown Road and Cheltenham Drive; 3,550 feet along Wisconsin Avenue between Cheltenham Drive and the end of the CBD; and 750 feet along East-West Highway between Waverly Street and Pearl Street. The project will "fill in the gaps" between private development projects which have been constructed or are approved in the CBD. The project will include: replacement and widening of sidewalks, where possible; new vehicular and pedestrian lighting; new street trees; new street furniture; new roadway signs; and conduit for future undergrounding of utilities.

Service Area

Bethesda CBD.

JUSTIFICATION

Staging of the Sector Plan in the Bethesda CBD recommends implementing transportation improvements and facilities identified in Stage I prior to moving to Stage II development.

Plans and Studies

Bethesda CBD Sector Plan, approved and adopted July 1994; Bethesda Streetscape Plan Standards, updated April 1992.

Specific Data

All improvements will be coordinated and integrated, as appropriate, with private sector improvements, various utility companies, and the Maryland State Highway Administration (MSHA) to ensure timely and cost effective implementation.

Cost Change

Not applicable

STATUS

Conceptual stage

APPROPRIATION AND

FISCAL NOTE

Costs shown are order-of-magnitude cost estimates. When concept plans are completed, the cost estimates will be updated.
